

The 50 MHz DX Bulletin

Volume 15, Issue 10

October 2004

ISSN 1073-1024

The 50 MHz DX Bulletin was founded by Harry Schools K3HS. It is dedicated to the understanding and utilization of long distance propagation in the 6-meter Amateur band. The current editor and publisher is Victor Frank, K6FV. Subscription rates are \$24 U.S. first class mail, \$27 Canada/Mexico airmail, and \$30 by airmail elsewhere for 12 issues. Circulation matters and DX reports should be sent to Victor R. Frank, K6FV, 12450 Skyline Blvd., Woodside, CA 94062-4554 USA. My Internet address is victor.frank@sri.com. I have a web site that hasn't been updated in a long time for various classes I took at <http://www.qsl.net/k6fv>. The bulletin may be freely quoted, provided that credit is given.

DX Operations

Most of the listings in this column came from SM7AED's notebook.

Tadjikistan, EY8/F5NHJ, EY8/F5LYF: Jean-Louis and Jean-Jacques are in Dushanbe until the end of March. They have now received their licenses and expect to be QRV on 6m soon, first with a vertical, then with a 3 el beam.

Malawi, 7Q7LA, 7Q7RM: Rumor has it that Les, 7Q7LA, will be back in Malawi by now. Allen, G0IAS, is hoping to go to Malawi before the end of the year and operate from Ron, 7Q7RM's QTH.

Niger, 5U/: Immediately before and after the CQ WW DX CW contest November 27/28, members of the VooDoo Contest Group may be active on the WARC bands and 6m with their personal call signs.

Algeria, 7X: According to the Algerien Radio Amateur club, "The 6 meters band has been allowed in June 2004 in Algeria." The allowed frequencies may be found on <http://www.chez.com/7x2ara/bandesdefrequenceattribueesauxradioamateurs.htm>. As of October 14, the ARRL was not accepting the cards from a recent operation for DXCC pending receipt of a copy of the license.

Belize, V3/: Joe Pontek, K8JP in Indiana, writes about working 6m from Belize. When he is there and signing V3, he often listens in the evening for South America. When he hears U.S. stations on backscatter, he calls them, but when they turn their beams toward him the signals are gone. He said this is particularly true with Florida stations. For an interesting article see <http://ecjones.org/backscatter.htm>.

Turks & Caicos, VP5: Four members of the Western Washington DX Club will be operating the 2004 CQWW CW contest from VP5JM's QTH on Providenciales Is. Outside the contest and between November 21 and 30 they will use VP5/home call concentrating on WARC bands and 6m.

Bonaire, PJ4/WW4LL & PJ4/K4BAI: Look for Fred and John between December 8 and 15. Outside the ARRL 10m contest (where they will be QRV as PJ4Z) they may include 6m activity.

Anguilla, VP2EJ: W5SJ will be active on 80-6m from here, NA-022, grid FK88, from November 5-11.

Brazil, PY2ZX/PY2, PU2OCZ/PY2: Ark and Luiz will be active on 50, 144, and 440 MHz from Comprida Is., SA-024, grid GG64bx on November 13-15.

Ascension Is., ZD8I: Ian writes that he is finally operational on 6m using an IC706/MKIIG and 5-element Tonna 2m AGL on the side of a mountain 280m ASL. He has an excellent view of the horizon from 330-70° and a relatively unobstructed path from 240-320°. European stations report he is stronger than the ZD8VHF beacon. He monitors 50.110 most evenings but rarely calls CQ.

Falkland Islands, VP8WWW: Look for Group Tomball DXers (WF5W, NM5G, W5MJ and W5PF) between November 20 and December 4. Outside the CQWW DX Contest they may operate 6m.

South Shetland Is., ZW0CF, ZX0GTI: will be active on 160-6m from King George Is., AN-010, PY-01, from November 11-18.

Antarctica, ZX0: PT2GTI, Stuckert, and PT2HF, Lunkes, will be leaving Brazil and heading for Commandante Ferraz Base on October 27, expecting to arrive around November 25. Activity is planned for 20-6m.

Vanuatu, YJ: Carlo, IK6CAC and Elvira, IV3FSG, will continue their South Pacific DXpedition here between November 5 and 13.

The W3BO/UKSMG Mini-Expedition Kit. A Yaesu FT-857D has been donated to United Kingdom Six Metre Group (UKSMG) by friends of Herb W3BO(sk) in his memory. To make it easy, we have assembled a simple "Flyaway Pac" with rig, cables, and simple antenna, all packed for ease of transport. Sandpiper Aerial Technology have donated a 6/10 GM3VLB Mini Delta Loop. This antenna telescopes down to 75 cm and weighs less than 1 kg! The FT857D and Flyaway Pack are available on loan to anyone willing to use them on 50 MHz. We are not restricting this to UKSMG members--I suspect there are lots of IOTA, SOTA, etc. people out there who could make use of thi9s to create a bit more activity on Six, and it is a topband to 70 cm rig! So who will be first to use the rig? Please contact Peter, G8BCG, if you would like to make personal use of the kit or if you know someone who can. E-mail sponsorship@uksmg.com.

Beacon News

Svalbard, JW5SIX: on Hopen Is., KQ26, is back on the air. A new antenna for JW7SIX arrived on Jan Mayen but as of October 11 had not yet been installed on the mountaintop.

California, K6FV: Beacon on 50.069 will alternate between vertical pointed NE and Horizontal Yagi pointed NW.

C6AFB Still On The Air

Unhappily I have to report that my tower and DJ2UT beam on Green Turtle Cay were totally destroyed by hurricane Jeanne (after surviving Frances). This is the third time in 14 years they have come down so I am getting a little tired of re-building! However, miraculously, the Ringo Ranger vertical for the C6AFB beacon at the same location survived and has recently been heard here in Maine by K1TOL.

I will be returning to C6 in mid-December for a stay of 2-3 months and do not yet know what antennas I will be able to rig up but at least onn six I will have the Ringo Ranger as a fall back. I will also have my Butternut HF2V for the low bands since I dis-assemble it prior to every hurricane season

Bill KM1E/C6AGN

October 04 DX Reports

The following reports of 50 MHz and higher DX propagation are courtesy of JA1VOK, JH1WHS, YO7VS, K6QXY, and postings on the Internet. Apologies to any sources I may have inadvertently neglected.

The first entry is *mmddhhii*, where *mm* is the month, *dd* is the day of the month, *hh* is the hour UTC, and *ii* is the minutes after the hour. The year is understood to be 2004. Symbols just before the call of the reporting station include: V=Video Carrier, I=Inband video sidebands, F=FM audio, B=beacon, C=CW, J=JT44 or FSK441, P=PSK31, R=RTTY, S=SSB, W=mode not mentioned (or both CW & SSB), H=heard only. (BSc) = backscatter.
